

NOTICE OF A PROPOSED CHANGE TO AN APPROVED RENEWABLE ENERGY PROJECT (REA No. 7639-96SGEZ)

For Illumination
By Canadian Solar Solutions Inc.

Project Name: Illumination
OPA Reference Number: FIT-F2MN89G
Project Location: Part Lot 2 and 3, Concession 2, Township of Scugog, Ontario
Dated at the Township of Scugog this 28 day of May, 2015

Illumination LP was issued a Renewable Energy Approval on June 26, 2013 in respect of the Illumination project. Information with respect to the decision on this project can be viewed on the Environmental Registry by searching 011-7470.

Illumination LP (a subsidiary of Canadian Solar Solutions Inc.) is proposing to make a change to the project and the project itself is subject to the provisions of the *Environmental Protection Act (Act)* Part V.0.1 and Ontario Regulation 359/09 (Regulation). This notice must be distributed in accordance with section 32.2 of the Regulation. This notice is being distributed to make the public aware of a proposed change to the project.

Project Description and Proposed Changes:

Pursuant to the Act and Regulation, the project in respect of which the Renewable Energy Approval was issued, is a Class 3 Solar Facility. An application has been made to the Ministry of the Environment to change the project and alter the terms and conditions of the existing Renewable Energy Approval. The proposed changes consist of minor technical changes to the preliminary design, including a reduction of the area inside the perimeter fence, an adjustment to the panel module mix (with fewer total modules to be installed), change in location of communications tower and Point of Common Coupling, change in the location and increase in size of the laydown area, reconfiguration of internal access roads, change to the substation manufacturer and location, and a change to the inverter station model and location and reduction in the number of inverters from 15 to 7.

If approved with these changes, the facility would have a total nameplate capacity of 10 MW. The project location, taking the change into account, is described in the map below.

Documents for Public Inspection:

Illumination LP has been required to update the supporting documents that are required to form part of the application or which must be otherwise submitted to the Ministry of the Environment available to the public (entitled *Modifications Document for Illumination*). Written copies of the draft supporting documents will be made available for public inspection on June 12, 2014 on the project website at <http://illuminationsolarpark.com/>.

Project Contacts and Information:

To learn more about the project proposal or to communicate concerns, please contact:
